

ANNUAL GOALS CHECKLIST

Use this checklist as a guide when developing annual goals for a student. We have also included a section for any additional comments you might have about the student's annual goals.

- My student has at least one annual goal that addresses transition and is aligned with postsecondary goals beginning with the first IEP to be in effect when the student turns 14.
- My student's annual goals include a specific action which can be measured or observed.
- My student's annual goals include a condition (materials used, setting where the action will occur, and/or under what circumstances).
- My student's annual goals include performance criteria for measurement, including the following:
 - How well my student must perform to demonstrate mastery
 - Number of frequency or times to demonstrate mastery
 - Timeframe of goal
 - Method of measurement

Example:

Mary will identify her bus stop in the community and on the map 100% of the time over 5 consecutive trials in a 1-month period.

Additional Comments and Next Steps:
