

Career Clusters and CTSO Classifications

You can find a number of career interest assessments and surveys on our website. Many instructors use the [Career Cluster Interest Survey](#) to begin the career exploration process with students. Once you have assessed the student and identified a career cluster of interest, use this form to choose a CTSO that would help them gain valuable work experience in that field. We have provided links to career interest assessments and CTSO's at the end of the document.
