

COURSE OF STUDY CHECKLIST

Use this checklist as a guide when developing a course of study for your student. We have also included a section for any additional comments you might have about the student's course of study.

- My student has a multi-year course of study included in the first IEP to be in effect when he or she turns 14.
- My student's course of study includes all classes from his or her current year to anticipated exit year of high school.
- My student's course of study includes classes that will help him or her achieve postsecondary goals.
- My student's course of study will enable them to meet requirements for their diploma pathway.

I update my student's course of study every year to reflect changes in courses offered or my student's postsecondary goals change.

Additional Comments and Next Steps:
